Description

When you're wanting that perfect spot with that classic farmhouse...look no further. Adorned with a row of shade trees in the front yard and surrounded by 5 acres, this authentic 2-story farmhouse with a front porch has unlimited potential. The 4 main rooms downstairs include a family room, formal dining, a large country kitchen, and a front room which always in the past was kept for the best – would be ideal for a first-floor bedroom. A full bath is adjacent to the sunroom and laundry hookups are in the kitchen. The upstairs has 4 large bedrooms with ample closet space and a pulldown staircase in the hall to a 28' x 28' floored attic with a 10' peak ceiling.

The home exterior is vinyl siding, has replacement windows, and is equipped with electric heat and central air conditioning. A 38' x 28' unfinished utility basement has concrete floors ideal for storage with an outside entrance.

Plenty of outbuildings include a post-frame metal-sided 40' x 64' x 14' pole barn with a dirt floor, two 12' tall sliding doors, and two skylights. Additional outbuildings include a 21' x 50' workshop garage with wood floor, 3 sliding doors and an open lower level, a 13' x 27' chicken house, and a 9'10 x 15'10 brick feed house – all ready to transform to whatever your hobby is.
